TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months McConnellsburg readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit.

W. A. McKinnie, N. Carlisle St., Greencastle, Pa., says: "I am only too glad to allow you to use my name for recommending Doan's Kidney Pills. I am a strong friend of this remedy. I take Doan's Kidney Pills about twice a year and they keep my kidneys normal tone up my system. There are no words too good for me to say for Doan's Kidney Pills."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McKinnie had. Foster-Milburn Co. Props., Buffalo, N. Y.

Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Political Announcements.

For President Judge of the Court of Common Pleas of the 51st Judicial District.

DONALD P. McPHERSON, Gettysburg.

Subject to the Non-Partisan Primary. In announcing my candidacy for President Judge of the Court of Common Pleas of the 51st Judicial District, I wish to thank my friends who, without regard to Party, have so generously expressed their approval of it and to assure every voter of Adams and Fulton Counties that I shall appreciate his suffrage and support.

The Judgeship is now non-partisan—made so specifically by Act of Assembly—and if nominated and elected to that high office it will be my endeavor to observe the spirit of that act and to administer the duties of the office with fidelity and impartiality, to the end that the law may be enforced and justice done.

DONALD P. McPHERSON, July 1, 1915.

J. L. BUTT, Gettysburg, Pa. To the Voters of Adams and Fulton Counties:

In announcing my candidacy for the nomination for President Judge of the Fifty-first Judicial District I desire to state that I consented to become a candidate because of the number of members of the bar who urged me to do so and pledged me their support, and while I had the matter under consideration, assurance of support and approval came from voters all over the county and district urging the step, and confiding in these assurances, I consented. The office of President Judge is the highest honor in the gift of the people of this district and carries with it the gravest responsibilities. A Judge must not only know the law and be a student of the law, but must be without prejudice and bias in the administration of the law, the rights of the humblest citizen, must be as sacredly maintained as those of the most exalted or of the great corporations. He must weigh all matters carefully so that only justice and righteousness is done. The non-partisan law aimed at the highest judicial ideal in the separation of the Bench from politics and party organizations I pledge myself to the highest ideals of justice and right in the discharge of every duty if nominated and elected to preside over the Courts of this district, and as an assurance of such pledge let the life I have lived in your midst speak for itself. I will highly appreciate all support.

Most respectfully yours, J. L. BUTT, July 8.

I hereby announce myself as a candidate for nomination for the office of County Treasurer of Fulton county, to be voted for by the voters of the Democratic party at the primary election to be held Tuesday, September 21, 1915, and I pledge myself to support the ticket nominated as I always have been loyal to the support of the Democratic ticket. Your vote and influence are solicited.

DAVID GREGORY, Thompson township.

I hereby announce myself as a candidate for the nomination for the office of County Commissioner of Fulton County, subject to the decision of the voters of the Republican Party, at the primary to be held Tuesday, September 21st, 1915, and pledge my support to the ticket then nominated. Your vote and influence are solicited.

FOUND SOLACE IN CAPTIVITY

Englishmen Interned by Napoleon Passed the Time in Characteristic Pleasures.

An important center of action in the present war, Verdun, was a familiar name to Englishmen 100 years ago. In it were interned the most important of those who were caught on the continent when the peace of Amiens came unexpectedly to an end in 1803. From then until Waterloo the French town had a British colony numbering about 900, who, with dinners and dances, steeplechasing and cock fighting, reproduced as well as they could the conditions of life, at home. There were five exclusive English clubs, and even a pack of harriers.

They gambled for very high stakes. It was estimated that during his stay at Verdun Lord Blayney lost at cards something like \$250,000 a year. That nobleman exhibited to the last the national insouciance. When peace permitted his return from exile he traveled leisurely to Boulogne, and then suddenly decided to go back to Verdun to purchase a property there. So, he said, to be able to bathe and fish in the Meuse and have a pleasant retreat whenever he felt inclined to visit France.

FAIR WARNING.

The lanky youth who occupied a seat in a passenger coach persisted in sticking his head and shoulders out of the window and rubbing at the scenery. The brakeman was passing through the coach and he touched the youth on the back.

"Better keep your head inside the window," advised the brakeman.

"I kin look out the window if I want to," angrily returned the youth.

"I know you can," warned the brakeman. "But if you damage any of the ironwork on the bridges you'll pay for it."

PURE WATER FOR SOLDIERS

Elaborate Precautions Taken by Heads of Armies to Insure a Proper and Ample Supply.

Suitable drinking water is of vital importance to an army, and this is only one of a multitude of problems that must be studied carefully by those who conduct a successful campaign.

The water supply of a camp is a matter of great importance, the Scientific American says. Only running water is used. In the German army the upstream water is used for drinking purposes and the downstream water for watering horses and for bathing. Suitable signs notify the men which water is safe to drink and which may be used for bathing. In shallow streams basins are dug or small dams built so as to form a reservoir of ample dimensions. Stepping stones are provided to keep the water clean, as well as board protection to prevent the banks from crumbling. Basins are dug for watering horses; troughs are provided only in case of necessity, and are then propped on posts and filled by means of pumps. Pipes may be driven if water lies at a reasonable depth—in other words, not more than twenty feet. Depending upon the size, these pipes will deliver from four to twenty-two gallons per minute. If water lies very near the surface a hole is dug and a cask, the bottom of which has been knocked out, is placed in the hole to form a basin. If the water lies at a greater depth the basin may be formed of box sections, driven in one on top of the other.

SHORT STORY WITH A MORAL

That it Pays to Read Advertisements Is Proved by This Happening in New York.

The wise man reads the advertisements in his favorite newspaper as closely as he does the news. One of these men of wisdom is Samuel Gibbons of this city. Because Mr. Gibbons is a close reader of Herald advertisements four American heirs to a Canadian estate valued at half a million dollars have been found.

The story of this romance in real life was told recently. In its search for the heirs to the estate of Mrs. Martha E. Campbell of Prescott, Ont., the Trust and Guaranty Company, Ltd., of Toronto placed an advertisement in the personal column of the Herald. Mr. Gibbons read it. William T. Doherty, one of the long-sought heirs, was known to Mr. Gibbons and was soon put in possession of the news that meant so much to him, his sister and his two brothers. "It pays to advertise!"—and to read advertisements!—New York Herald.

CITY VS. COUNTRY.

Church—I see the risk of being struck by lightning is estimated to be five times greater in the country than in cities.

Gotham—On the other hand, the chances of being struck by an automobile is many times greater in the city than in the country.

LIMITATIONS OF HYPNOTISM.

Landlady—It's that professor of hypnotism, trying to get his wife's permission to go out this evening.—New York Weekly.

CONGRATULATIONS.

"There's only one time in her life when a woman isn't afraid of a telegram."

"When is it?"

"On her wedding day."

COULDN'T SUPPLY IT.

"Waiter, bring me some infinitesimal cheese to finish my dinner."

"Sorry, sir, but the only cheese we've got in the house is Roquefort."

THE RESULT.

"He insulted me by offering me a drink."

"What did you do?"

"I swallowed the insult."

Road-Making Demonstration.

On July 20th, a road-making demonstration will be held at Bedford, to which you are invited. According to letters to this office from A. B. Ross, a piece of bad road, the like of which it is seldom one's privilege to see, will be quickly made over into a good road by the use of a newly invented machine. Mr. Ross insists that the cost per mile by the new way will not be more than the average tax per mile levied each year, and all done while you watch. Mr. Ross further states "the cheapest things in the world are advice and criticism; they cost nothing and usually that is what they are worth. The supervisor gets a lot of that cheap sort of contribution.

"Now is the chance for the voter and the supervisor alike to get accurate knowledge; to see how to construct roads that will stand up and how to do it for the least money. If you come your advice to the supervisor will no longer be inexperienced or cheap it will be based on what you have seen and understood."

We would like to see the work of this wonderful machine demonstrated over some of Fulton county's gullies. Please show us Mr. Ross.

Workmen to Patrol Roads.

Beginning August 1st, one hundred and ninety men will be placed at work as patrolmen on the State Highways to constantly keep them in repair. These men will be distributed throughout forty-six counties. Each man will be given a piece of road to keep in repairs, the length of his section depends on the character of the road, six miles being the limit. Each man will be equipped with shovels, pick, pushbrush, wheelbarrow, &c. Piles of finely broken stones and barrels of asphalt will be placed along the road at short intervals with which to make repairs as soon as discovered. By a system of superintendency the men will be required to "make good" or be dismissed. Under the present system it is costing over \$500,000 a year to keep up the roads; but by the patrol system it is figured that \$120,000 will cover the cost—a big saving to the State, to say nothing of the doing away with the annoyance caused travelers by their having to jolt over bad places for months until somebody finds time to repair them. "A stitch in time saves nine" is true of the work of keeping up roads.

NEW PERFECTION OIL COOK STOVE

It frees you from the moil and toil of carrying coal, shoveling up ashes, splitting wood, raking, waiting for the fire to come up, making a new fire, an overheated and dusty kitchen and a lot of other things that help make your life miserable.

New Perfection Oil Cook Stoves offer a safe, sane, satisfying and saving way to do your cooking. With the separate oven and fireless cooker they will do anything any other stove will do—bake, broil, roast, boil, fry, heat water for wash day and irons for ironing day. Sure they're economical. You turn them off when not in use—save fuel and money. You can regulate the flame. You're not bothered with smoke and smell because the combustion chimneys prevent that. The improved wick outlasts the ordinary kind. In fact, the New Perfection is just full of features that make a woman's work easy.
